RE: Coronavirus Update

Thank you to all our teams that have shown true dedication to our patients and each other during this difficult time. Your daily attention to ensuring our facilities and buildings remain a safe place to work by enhanced cleaning and social distancing efforts is appreciated. We understand that these last several weeks have been like no other time we have lived through. Please know we recognize each one of you, and our thoughts are with you and your families as this crisis continues.

David Vick and Sharon Myatt (W&F) have been working diligently with each of our respective banks to determine our eligibility with the CARES Act financial programs and loans that will benefit both companies and their employees. We are confident that both companies will qualify for a specific component of the CARES Act. The window to apply for options within the CARES Act is scheduled to open on Friday, April 3rd. We are being told it will take approximately a week before we hear if we are approved.

Although this program looks like a possibility for us, we do not want to make assumptions on the approval or timing. When we have more information regarding this program, we will share it with you. Thanks again to all of you for your continued hard work.
